May Trower—Decorative Dahlia
ONE OF OUR LEADING 1928 ORIGINATIONS

A new dahlia of exceptional beauty. An extremely large flower, ranging in color from the palest gold to a deep golden apricot. This very artistic dahlia was one of the twelve best California dahlias that helped to win for us the Palace Hotel Cup at the 1927 Exhibition of the Dahlia Society of San Francisco held at the Palace Hotel. (For further description see page 16)
Decorative Dahlias

Decorative Dahlias are large and usually full to the center, with loosely formed, long, flat petals. Many new introductions are remarkably beautiful. Some of the best cut flower varieties are in this class.

★AIBONITA (Oh, how beautiful)—This is one of our largest originations. An immense flower of a lavender or violet pink, shading to white, with a rich golden yellow at base of petals. The formation is unusual, owing to the great depth and fullness of the flower. The long graceful stems hold the huge blossoms high above the foliage, producing an extremely showy effect. Have had many reports as to the success of this dahlia throughout the entire country. Tuber $1.50.

★AL KORAN—A very proud and handsome dahlia that is always admired in our gardens. The extra tall plants are very useful for background effects and are liberally covered with large blooms of golden rod and amber. The petals of this flower are wavy and the blooms are held high on long, strong stems. A most excellent variety and was included in our twelve best California dahlias at the recent show. Tuber $1.50.

★ARROW OF GOLD—A refined blossom of pure gold, deepening in the center and shading to a golden apricot and amber at the outer petals. The immense deep blooms are held erect on long, stiff stems, making it a wonderful variety for cutting and exhibiting. Tuber $1.00.

★AMULET—A very beautiful and lovely variety, that blooms early and late, and is covered with blossoms. The color is very rare, a rich deep brown, suffused with old rose and gold. The flowers are always large and deep and of the most perfect formation, while the bush is strong and vigorous. This is one of the most valuable varieties for all purposes as the center remains closed throughout the season and the bloom is of unexcelled keeping qualities. We have had fine reports of this dahlia from all parts of the country. Tuber $5.00, Plant $2.50. (All plants in May.)

★AMUN RA—Our Gold Medal dahlia is of glorious coloring, and one of the greatest prize winners. To call it a glorified burnt orange hardly does it justice. The stems are wonderful—erect and stout and hold the immense blossoms well above the strong, vigorous plant. The blossoms keep for days when cut and last indefinitely on the bush. Amun Ra will be in flower long after many of the other dahlias have ceased blooming. An immense decorative of gorgeous shades of copper and orange. Tuber $1.00.

★BARBARA REDFERN (1927 Novelty of Curtis Redfern's)—A delightful blend of old rose and old gold. Beautiful flowers of immense size and of great depth are borne on heavy stiff stems. Begins blooming early and continues until the end of the season. Bushes are tall and vigorous growers and are profuse bloomers. Tuber $7.50, Plant $3.75.

★BARBARA WEAR—(One of our 1928 Introductions.) The fact that Barbara Wear won at the 1927 exhibition of the Dahlia Society of San Francisco held at the Palace Hotel, the Doubleday, Page & Company's Achievement Medal for "the most worthy new dahlia. Dasies never before exhibited" is in itself a strong recommendation. The color is extremely soft and pleasing, the beautiful flower being a pinkish lavender, shading at the outer ends of the petals to the softest, creamiest effect imaginable—one of our customers insists on calling it his "ice cream dahlia" because of this rare blending. The stems are perfectly straight, very long and exceedingly strong. The flower has good size, great depth and substance with excellent keeping qualities that will make it in great demand by gardens supplying florists and other cut flower trade. That is why it was considered a most worthy dahlia, useful as well as beautiful in the garden. It is illustrated on page 10. Stock limited. Tuber (May delivery) $10.00, Plant $5.00.

BASHFUL GIANT—One of the largest ever produced. The gigantic blooms of beautiful color, being apricot with golden shadings, are excellent for exhibition and are produced on stout stems. Tuber $1.00.

★BAZAAR—An extra large fine blossom that is a combination of California Sunset shades. Soft chrome yellow overlaid with red—delicately blended so neither predominates. This Autumn tinted flower, averaging nine inches has a good stem and is fine for cutting and exhibition purposes. Tuber $1.50.

★BEAU BRUMMEL—A pure royal purple which does not fade nor burn on the hottest day. The low spreading bush is always covered with these attractive blooms, which are very large and held high on excellent stems. Tuber $2.00.

★ BEAU IDEAL—(1927 Novelty.) This is one of Bessie Boston’s finest originations and was greatly admired in our gardens this season. The flowers are immense, being lavender at first and developing a pink tone later on. The lavender blooms soften to white, shaded lavender in the center and the pink flowers show a deeper pink in the center—the two colors blending harmoniously. The bushes grow tall and luxuriantly and the flowers are carried out of the foliage on long, stiff stems. This magnificent dahlia was one of the Twelve California dahlias that helped us win the Palace Hotel Trophy Cup. Tuber $10.00, Plant $5.50.

★ BERCEUSE—Something different, of pure salmon color early in the season, but changing later to salmon suffused with gold. Large flower with good stem. $1.00.

★ BLACK JACK—The color of this dahlia is so dark that it is almost black, though upon close inspection it will be found to be deepest maroon. A very striking variety that is liked by everybody. We always have a “Black Jack” planted at the beginning of our display garden because of this. The plant is very tall and the stems are perfect, holding the large flowers proudly erect. We can recommend this dahlia for all purposes. Tuber $2.00.

★ BLUE LADY (One of our 1925 originations)—A large flower of an unusual shade of bluish lavender, where the blue, instead of the pink tints prevail. The petals, shading to white, instead of pink, give this dahlia a decidedly blue cast. This beautiful variety was greatly admired in our garden and always in demand as a cut flower. The fine, large blossoms are held high above a robust bush on strong, stiff stems. Tuber $1.50.

★ CALIFORNIA SUPERBA—One of the largest pink dahlias. An immense bloom of a delicate shade of pink, without any blue, shading gradually into a white center. The stem is strong and very good, holding the extremely large flower high above the beautiful foliage. Tuber $2.00.

★ CALIZONA—This is a remarkable Broomall Decorative of new coloring, a deep, rich yellow. The large flowers are of a very distinct shade and stand out boldly on splendid strong stems, making it one of the most conspicuous in our garden. Tall habit of growth, a decidedly new color. Plant only $2.00.

★ CAROLYN WINTJENS—Beautiful salmon pink with rose shadings. Very large charming blossom with good stem. Excellent for exhibiting and cutting. Tuber 50c.

CASPAR G. WARE—(Dahliadel’s Novelty.) A large dahlia of great depth with petals folding almost to the stem. The flower, which is a beautiful lavender pink, has a strong upright stem from a low growing bush and the blooms have been known to keep a week when cut. Tuber $3.00.

★ CHAMPAGNE—This immense decorative is one of the largest dahlias. The coloring is rare—warm autumn shades varying from burnished copper to a dull golden champagne and chamol. The stem is exceptionally long and strong and holds the massive flower absolutely upright high above the tall bushes. This is one of the finest of the California dahlias and should be in every collection. This dahlia helped to win the Palace Hotel Trophy for us in 1924, 1925 and 1926. No garden or exhibit would be complete without this beautiful flower. Tuber $1.50.

CHARLES STRATTON—This is an Eastern Novelty that has won many prizes for its great size and artistic coloring which is pale gold shade and tipped with old rose. A tall grower and prolific bloomer. The attractive blooms are somewhat fluffy and keep a long time when cut. The stems are long and stiff. Tuber $2.00.

★ CHARLOTTE LAFFRENZ—(One of our most beautiful 1928 Introductions.) A new art decorative of immense size, and in color a blending of the always popular gold shades, the perfectly formed center being a bright gold, shading to a rich apricot in the outer petals. The center is very full and the blossom is held high on a long stiff stem above the foliage. To see the tall bush in full bloom is a beautiful sight, as the flowers are held so proudly erect and have such an artistic formation and wonderful coloring. Charlotte LaFrenz was named for a beautiful friend and is as lovely as the name suggests. Stock limited. Tuber in May $10.00 net, Plant $5.00 net.

CHEMAR’S PURITY—(Novelty of Chemar’s Dahlia Gardens.) A most perfect white decorative. Petals are long and straight. The center excellent and the size immense. Stems extra long and stiff, holding flowers high above a strong, sturdy plant. When the flowers first open, they show a slight trace of ivory near the center but this gradually changes to a pure white at maturity. Certificate at the A. D. S. Trial Gardens. Tuber $10.00, Plant $5.00.

The stems are good, and hold the immense blooms gracefully above the sturdy plant. Marmion is an excellent variety for the “Largest Dahlia in Show” competition and has again won many prizes this year throughout the country and given much pleasure to all who grew it. Tuber $7.50, Plant $3.75.

★MAUDE JOHNSON—(1928 Introduction originated by Martin Johnson.) A beautiful decorative with a combination of coloring absolutely unique—a pinkish violet shading to white, flushed with lavender. The base of all the petals is gold giving the effect of a gold center. Each petal has a wee tip of gold and are long and curling. Early flowers are very, very large and borne on stiff stems. Bushes grow fairly tall and produce plentifully of blossoms that are held high out of the bushes on long stems. Centers remain closed until late season when the stems grow thinner. The flower keeps very well when cut and has attracted unusual attention because of its different coloring. This lovely dahlia should do exceedingly well where the seasons are short, as the first blooms are extremely large and very beautiful. Tuber $5.00, Plant $2.50.

★MAY TROWER—(One of our finest 1928 Introductions.) A dahlia we are justly proud of, as it is one of the very finest we have ever originated, and the most admired variety of its coloring in our entire display garden. A huge, deep, most artistic flower, ranging in color from palest gold to a deep golden apricot. Occasionally the flowers will be regularly tipped white, presenting a very novel appearance. Hardly any two blooms are the same. The stems are long, stiff, and rigid, and hold the blossoms proudly erect in spite of their size. May Trower is an excellent garden, exhibition and cut flower, being unusual in formation, with great depth and substance, and a rich, beautiful blending of colors. We feel very fortunate in being the originators of such a lovely and novel dahlia. See illustration on page 4. Tuber $10.00, Plant $5.00.

★MEADOW LARK—A fine large flower of a new coloring. It has shadings of buff and straw, with the reverse side of the florets darker. This large sized flower is held high on extra long, straight stems, out from a tall plant with vigorous foliage. Tuber $2.50.

This exceedingly attractive flower is an invaluable addition to the Autumn colored dahlias so much in demand. The large flower is held high on absolutely stiff stems, growing far out of the foliage. An excellent flower for exhibition and in demand by the florists because of its being such an excellent cut flower. The Peony Dahlias are of recent introduction, and are extremely popular. Flowers are large, having two to five rows of petals, very broad, and artistically twisted and curled. They usually show the golden center, and have small curling petals clustered around it. They are free flowering, and their long, straight stems make them a beautiful growing and cutting variety.

**ALBERT WARD**—An immense flower of deep purple, and one of the best peonies ever introduced. A perfect exhibition flower which stands erect on a long, stiff stem. This beautiful flower attracted great attention in our garden as true purple is rare. The formation of this dahlia is perfect. Tuber 75c.

**BLOSSOM**—Immense flowers of white with a faint pink at the base of the petals, suggesting the dainty colorings seen in the fruit blossoms. Blooms held high above bush on long, stiff stems and last for days when cut. Tuber $1.00.

**BLUE BIRD**—An exceptional color of the deepest tone of mauve or lilac which in certain lights has a bluish sheen. Large blossoms, held erect on long, stiff stems. Tuber $1.00.

**CARDINAL MERCIER**—Supreme in its coloring, being a deep flesh pink with light veins of canary shooting up from the base of the petals in the center. Then there appears a glistening silvery sheen of the white-flesh peach. Tuber $2.00.

**CHANSON**—The color of this large, heavy Peony is an entirely new one—deepest lilac with a bluish sheen. Petals are numerous and it has a strong, erect stem, excellent for exhibiting and cutting. Tuber $1.00.

**CITY OF PORTLAND**—One of the best ever introduced. Color a clear, deep, rich yellow. It has every good quality; immense flowers that are graceful and artistic, held upright on long, strong stems that show them to full view; the plants are strong and vigorous and produce their flowers with unusual freedom. 75c.

**CREAM KING**—An immense flower on long, strong stems. A deep cream. Indispensable for garden and exhibition purposes. Tuber 75c.

**DREAMLIGHT**—A most enchanting blossom of a lovely shade of old rose pink, deepening to a golden yellow at base. The flowers are large and the bush is always covered with a mass of these most beautiful blooms. We had a long row of Dreamlight in our garden and it was surely a wonderful display the entire season. The stems are perfect and hold the flowers erect. Tuber $1.50.

**ELEANOR HERRICK**—A marvelously large, light maroon Peony, with a long, straight stem. This dahlia is of perfect form for exhibiting and keeps its size all season. Tuber $1.00.

**ELIZABETH BOSTON**—Enormous blooms of deep crimson, shading to an old gold at the tips and will hold its color the entire season. The center is surrounded with tiny curly petals. Stems are exceptionally long and canelike. Tall growing and very floriferous. Tuber $2.00.

**GORGEOUS**—Rightly named, yellow shading to bright scarlet. These gorgeous blossoms of tremendous size and great depth, stand erect on exceedingly long, stiff stems, and add striking beauty to the garden. Because of their unusual substance the blossoms are splendid exhibition and cut flowers. The plant grows very tall and late blooms will be as large as the early ones. Tuber $1.50.

**JEAN MULLANE**—(1926 Novelty.) A splendid addition to this type, both for cutting and exhibiting. A very large handsome blossom—fiery orange, stem is long and stiff. Plant is of medium height and a most generous producer of flowers at all seasons. Tuber $3.00.

**MRS. JIM McCANDLESS**—A fine large peony of old gold shading to apricot. The very beautiful flowers are held on good stems, and the bush is always covered with bloom. Mrs. Jim McCandless is very useful for exhibition and cut flower purposes, and is always used in our Autumn baskets. Tuber $1.50.

**NATALIE MAI**—A huge, deep rich burgundy blossom with maroon shadings, lightening to cream at the edge. Many artistic florets surround the center, giving a most artistic effect. 75c.

**PEARL RUGGLES**—A carmine rose suffused with pink shading lighter at tips, and to white at the base of petals. Extra long, fine stems hold this beautiful blossom erect. The long petals twist and curl, and the yellow disc is surrounded with lovely little florets, giving the whole a very artistic effect. See illustration on page 27. Tuber $1.00.

Show and Hybrid Show Dahlias

Show Dahlias are the old-fashioned quilled double flowers and are beloved by many because of their lovely colorings and excellence for cutting.

The Hybrid or Giant Shows are becoming great favorites on account of their tremendous size. They are not as tightly quilled, but are looser petaled and not as stiff as the Show Dahlias. They are very attractive.

★BETTY BIRD—Hybrid Show—One of the most beloved dahlias in our garden, of a rich, glowing rose pink, deepening in the center—one of the most charming of all colors. There is a suggestion of yellow at the base of the petals. The flowers are huge, of a perfect Hybrid show type without the stiffness of the show dahlia and keep unusually well when cut. One could not wish for a more beautiful garden effect than seeing the low growing plants laden with these huge pink balls, held high on long, graceful stems. We have never been able to grow enough stock of this Gold Medal dahlia, and have twice had to withdraw it from market to increase our stock. Stock limited. $5.00.

"We have had splendid success with the dahlia bulbs purchased from you. We got ten plants from the ten bulbs sent to us, each of which has proven to be the variety ordered."—(From Texas.)

The Dahlia tubers which I ordered from you reached me in fine condition, and I want to thank you for the extra one you sent me; you sent me my favorite color, and I know that I will be well pleased with the whole collection. I shall recommend you to all of my dahlia friends."—(From Mississippi.)

Excerpts from Letters Received from Satisfied Customers Throughout the Country Concerning Our Dahlia Seeds

"I have today sold a three year old seedling bulb for $35.00 grown from seed purchased of you. This bloom was admired in my garden last year by a passing automobilist who requested that I reserve a bulb and name my price."—(From Oregon.)

"I am writing to tell you of my success with the dahlia seed I bought of you two years ago. I planted them last spring and in September they bloomed, and Oh! such fine ones! There were all colors—pinks, reds, yellows and mixed colors. They were of all varieties. I do not think there is one I want to discard. The blooms had long stiff stems. I took great pleasure in them; each morning I would go out to see what new one was showing color. There is joy in growing dahlias from seed as there are many surprises in store for you."—(From California.)

"My dahlias grown last year from your seeds were wonderful—nearly all double and choice and marvelously glorious! As one after the other opened, each seemed a fresh and delightful surprise. I think every one germinated and made a good plant—at least 90% of them. People seeing my dahlias will hardly believe that they are grown from seed, especially when they are told that they bloom the first year and see the blooms. Of course, they then all want to know where I get my seed and I tell them, which is the truth, that I would not think, after a dozen experiences, of getting them anywhere else than from Jessie L. Seal.—(From Philippine Islands.)

"I am enclosing you herewith dft. for $20.00 for which please send me your best dahlia seed. I have sowed several different kinds of dahlia seed but have had better results by far from yours."—(From Illinois.)

"I live in a small town right alongside the New Jersey State Highway and your seedlings were admired by a great many people, both in 1925 and 1926. Your seeds certainly did produce some wonderful flowers. Your seeds are the best I have ever purchased from anyone and anything I can say in regards to your seeds, I will be glad to say.'—(From New Jersey.)

"I enclose one dollar in Canadian Script for 75 seeds of your general collection. I received this same collection last year, and although we had a short growing season, cold and heavy rains, and late spring, the plants, which were started in March, grew well, and we saw some very fine blooms, one in dark maroon shade, one very deep red, half double, with large petals, and one fine shell pink, large, like "Mrs. W. E. Estes", one sulphur yellow—I have about fifty named varieties but found the seedlings very interesting."—(From Canada.)

"We were delighted with the seed we bought of you last year, and I want especially to tell you that we won first prizes at three shows—two fairs and the Dayton Flower Festival where $30,000 worth of cut flowers were shown. At Dayton we won two firsts, and our baskets were filled with our own seedlings—your $2.50 seed."—(From Ohio.)

"Enclosed please find check for $5.00 for which I wish you to send me Dahlia Seeds. Last year I bought dahlia seeds from you and had wonderful success and want to try some more this year. I had a lot of pleasure watching them grow and then such wonderful blooms and so many different colors."—(From Connecticut.)

"Two years ago when I bought seed of you I took the blue ribbon for the best and largest dahlia at the fair. The people were astonished and inquired and wanted to know where I got them. They thought I had the flowers shipped in."—(From Kansas.)

"One of the most interesting experiences of this year's garden was the growing of your dahlia seeds. They were really lovely both in form and color. They are still blooming.—(From Massachusetts.)

"Please send me a packet of your best dahlia seed, for which you will find $5.00 enclosed. This will be our third year to order these best seed from you and we have had good success and very fine flowers each year. Our garden is visited daily all during blooming season and many ask for your address to send for a catalogue."—(From Ohio.)
Prize-Winning Delphiniums

In order to supply the missing blue shades to the garden—lacking in dahlias—we are now listing our Selected Strain of the famous Prize-Winning Vanderbilt Hybrid Delphiniums. This is not a new idea with us, as we have been working with the delphinium for some time, and take great pleasure in adding this extremely beautiful flower to our catalog. A lovely effect can be obtained by a blending of dahlias and delphiniums that is difficult to equal, especially when planted in masses.

The culture of the delphinium is simple. Sow seeds in flats, planting in drills about one-eighth inch deep, cover with peat, leaf mold, or loam, keep moist and place in half shade in a moderate temperature. Delphiniums will commence to appear in about ten days. When large enough, either pot them up or set them out, if the weather permits. Plant any time of the year, as long as they are kept from frosts. We offer the seeds as follows:

SEAL'S SPECIAL PACKET—Composed of seeds from large DOUBLE VARIETIES ONLY. Every parent plant a prize winner! It is difficult to equal this unusual offer, as the seeds have been saved from the very finest, tallest, and largest specimens. There are about 200 seeds in a packet and the colors will range from palest lavender to deepest blue. In most cases the outer row of petals will be of a different shade than the inner row, a very beautiful effect! Price $1.50 per packet. Stock limited.

SEAL'S SINGLE PACKET—Composed of seeds from large SINGLE VARIETIES ONLY. This is the delphinium the florists so frequently use, with long, graceful spikes of large flowers of all shades of blue and lavender. Many consider the single varieties more graceful than the double ones, as the flowers more nearly approach the wild trumpet shape. These bushes are also very tall, and, like the double varieties, will grow to 6 or more feet in height. Price $1.00 per packet of 200 seeds.
Prize-Winning Delphiniums

SEAL'S SURPRISE PACKET—Composed of seed from BOTH DOUBLE AND SINGLE VARIETIES, the doubles predominating. You can't help but be delighted with this selection, as it contains practically every shade and combination of shades possible to the delphinium. A fine packet for the beginner, selected from the finest plants in our garden. Price per packet of 200 seeds, 50 cents.
